Kerry,

These are the PFAS cleanup levels you were referring to?

I was concerned about this part of the focus sheet... "As of June 2022, there are no legally applicable state or federal laws, such as Maximum Contaminant Levels, to apply when developing PFAS cleanup levels" and "Until Ecology makes a site-specific determination, you can consider the soil and groundwater cleanup levels set forth in this focus sheet to be preliminary cleanup levels."

Have these levels listed in the focus sheet been codified into Washington State law (WAC)? I think you said you were going to check on that.

Much appreciated!

Very Respectfully,

Subject: PFAS guidance

Hi Patrick,

Here's the guidance I was referring to today. Thanks for spending the time to update, it was really helpful. Let's keep reaching out and I'll keep striving to coordinate all the pieces, we will eventually be organized! Kerry
